

CHARACTERFirst

WIN THE PERSON. WIN THE TEAM.

We train **character** the same way coaches train technique.

Sport is the perfect classroom for life. Yet most programmes only develop athletic skills — not the person behind the jersey. Character First fills that gap with a complete, evidence-based character development system for young athletes aged 14 and above.

EVIDENCE-BASED

AGES 14+

NL & EN

OUR MISSION

Every young athlete grows as a person, not just as an athlete. Sport is our stage — character is our goal.

OUR PROGRAMME

Four Tracks. One System.

Character First offers four integrated programme tracks — covering the team, the coach, and the individual player. Every track is available in Dutch and English and comes with print-ready worksheets, facilitation guides, and mentorship tools.

Monthly Character Programme

8 lessons · Player + Coach worksheets

A full-season programme with 8 monthly themes: self-knowledge, stress & pressure, my role, communication, team first, resilience, leadership, and physical wellbeing. Includes player worksheets, coach facilitation guides, and combined full versions.

FULL SEASON

TEAM

COACH

Preseason Culture Programme

5 sessions · Team identity & agreements

Five structured sessions to build a strong team culture before the season starts: team identity, team contract, trust & safety, conflict & recovery, and culture in action. Player and coach versions included.

PRESEASON

TEAM

Coaches Development Track

10 self-study modules · Evidence-based

An in-depth personal development journey for coaches. Each of the 10 modules covers one competency — from self-knowledge and feedback to emotional regulation and mental health awareness — with books, TED Talks, podcasts, and weekly action tasks.

COACH

10 MODULES

Individual Mentorship Programme

8 sessions · 1-on-1 with a CF mentor

A personal journey for the individual player, guided by a Character First mentor. Eight sessions covering identity, personal story, goals, self-talk, resilience, role models, team contribution, and future vision.

INDIVIDUAL

1-ON-1

OUR APPROACH

Not a Workshop. A System.

Grounded in Science

Every programme element is rooted in peer-reviewed research: Self-Determination Theory (Deci & Ryan), Achievement Goal Theory (Ames), coach-athlete relationship research (Jowett), and resilience science. This is not motivational content — it is structured character training.

THE THREE BIGGEST SPORTS IN BELGIUM

Football
